Structured Cabling Support Solutions

Chatsworth Products, Inc. (CPI) delivers innovative, high quality and cost effective Structured Cabling Solutions for optimizing, storing and securing network cabling and equipment in both large and small applications. Combine CPI Cable Management Products, Rack Systems, Cable Runway and Tray and Grounding and Bonding Products to support standard wiring closets, or use Wall-Mount Systems to support smaller networks and zone applications.

Make the choice to simplify everyday cabling concerns with CPI's comprehensive Structured Cabling Solutions.

1 Cable Management Products - Velocity™ Cable Management is an economical solution for everyday use in telecommunications rooms, equipment rooms and lab spaces and creates a complete vertical and horizontal pathway for premise cabling and patch cords on CPI Rack Systems.

2 Rack Systems - Unsurpassed strength, stability and durability for supporting patch panels, high-density blocks, cabling and other equipment. With the addition of shelves and special brackets, racks can be quickly adapted for changing needs or to hold larger devices and computer hardware.

3 Cable Runway and Tray - CPI's Cable Runway and OnTrac™ Wire Mesh Cable Tray System make up a vital part of the IT infrastructure solution by providing horizontal, vertical and backbone pathways from the data center to workstations.

4 Grounding and Bonding Products - CPI's comprehensive line of UL® Listed Grounding and Bonding Products provide protection and help prevent transient voltages from damaging sensitive electronic equipment.

5 Wall-Mount Systems - Store and secure equipment on the wall inside or outside of the data center or equipment room and connect remote groups of users to the network.
